

LEARN TO NAVIGATE RESEARCH OPPORTUNITIES & EVALUATE RESEARCH OUTCOMES

Five Zoom sessions led by research experts in Down syndrome and Alzheimer's disease

Adults with Down syndrome and/or family caregivers are invited to become Research Advocates with this short, online course in Patient-Centered Outcomes Research!

The Pathways to Parity program empowers people and caregivers to accelerate and improve healthcare research in the aging population.

For the first time, this course is being offered for adults with Down syndrome and/or family caregivers looking to become well-versed in Patient-Centered Outcomes Research (PCOR) and learn how to understand and evaluate research opportunities related to Down syndrome and Alzheimer's disease.
