

TRC-DS is funded by the National Institutes of Health's INCLUDE (INvestigation of Co-occurring conditions across the Lifespan to Understand Down syndromeE) project, in partnership with:

TRC-DS is recruiting participants at these research centers across the United States and several in Europe:

USA:

Aurora, CO
Boston, MA*
Cleveland, OH
Chicago, IL
Cincinnati, IL
Dallas, TX
Fairway, KS*
Indianapolis, IN
Lexington, KY*
Madison, WI*
Nashville, TN
Orange, CA*

Phoenix, AZ
Pittsburgh, PA*
San Antonio, TX
Staten Island, NY*
St. Louis, MO*

EUROPE:

Barcelona, Spain
Cambridge, UK*
Dublin, Ireland
Paris, France

*Indicates co-enrolling center for ABC-DS and TRC-DS

Bringing the latest discoveries in the Alzheimer's field to people with Down syndrome

Down syndrome and Alzheimer's are linked

As many as nine in 10 people with Down syndrome develop Alzheimer's disease which is a leading cause of death for this population.

Researchers are committed to giving back to this community.

Privacy Statement

The privacy of TRC-DS participants is top priority. The study is required by law to maintain the privacy and security of participants' protected health information.

Our TRC-DS community

The Trial-Ready Cohort-Down Syndrome (TRC-DS) is a community of clinical trial participants who could help find a cure for Alzheimer's disease.

Participants in TRC-DS will have the opportunity to be matched to clinical trials related to Alzheimer's disease

Participants needed

TRC-DS needs healthy adults, ages 25-55, with Down syndrome to join.

Participants:

- Will visit their nearest research center once every 16 months for routine tests and brain scans;
- Are on the fast-track for Alzheimer's clinical trials; and
- Help advance research.
